The drop in traffic is the result of a decrease in coal transshipment, caused by the failure of the transshipment bridge, limited throughput of the railway line, and the crisis in the Red Sea, which resulted in the extension of ship trips around the Cape of Good Hope. Also, there was a decrease in the transshipment of scrap iron due to the drop in prices in Turkey and due to the limited storage space for scrap iron due to the work on the port infrastructure of Terminal Rijeka.

General cargo in the first six months of 2024 amounted to 355,800 tons, which is almost identical to the same period in 2023 (356,990 tons).

Human potential

On 30.06.2024. the Company has 636 employees, which is 4 more than in March 2023, when there were 632. The average gross salary in the observed period is €1,721.37, while in the same period of the previous year it was €1,499.98, which is an increase of 14.7%. At the end of 2023, it was necessary to increase workers' wages, which were not significantly increased in the previous few years, and given the increase in inflation during 2023, this became necessary in order to provide workers with a certain level of living standards.

Investments

On the **CEF project Rijeka**, a multi-year investment project, the execution of works continued, and the total investments made in the port infrastructure in the first half of this year amount to **€6.3 million**. The completion of work on the project, which was planned for the beginning of June 2024, has been extended until the beginning of August 2024.

The hydraulic gantry crane for **Terminal Bršica**, worth **€2.5 million**, was supplied and delivered to the Terminal on April 8, 2024, and after installation of the crane and training of the workers, it started working at the end of May 2024.

Also, the overhaul of the 32 t coastal crane at Terminal Rijeka, started at the beginning of the previous year, is in the final phase, and in the first half of 2024, works worth €55,000 were carried out. Completion of the works is expected during July this year.

Renovation works of **warehouse no. 9** at the Rijeka Terminal for the needs of the Maintenance Service workshops that were started in 2023, were completed at the beginning of 2024, and the total value of the project works is **€871 thousand**. As part of the modernization of the Maintenance Service workshop, during the second quarter, 3 bridge cranes worth €56,000 were purchased and put into use.

By obtaining a new concession for the provision of parking services at the middle Delta location, it is necessary to arrange the area before putting it into operation, in terms of asphaltting the surfaces, marking them, fencing the area, etc. At the beginning of 2024, work on the arrangement of the said space began, and in the second quarter of 2024, the bulk of the work was carried out, and the space is almost completely renovated. The value of the works performed until June 30, 2024, amounts to 618 thousand euros.

In February 2024, 2 electric forklifts worth €134,000 were delivered, the order of which began in 2023.

The reconstruction of the entrance plateau at the Škrljevo Terminal, which began on October 20, 2023, was completed on July 10, 2024, with a total value of EUR 132,574.62, of which EUR 55,547.69 was paid by May 28, 2024. The project for the renovation of the loading bridge at the bulk cargo terminal in Bakar, with a total value of EUR 1,230,100.00, was advance financed with EUR 355,800.00 on March 5, 2024.

The impact of the Russian invasion of Ukraine on the Company's operations

The war in Ukraine and the sanctions imposed on Russia have an impact on the world economy, and therefore on the European and Croatian economy, and indirectly on the Company's operations. The largest EU economies have minimal GDP growth rates, so lower Croatian GDP growth rates are expected. Due to Russia's invasion of Ukraine and the interruption of the operation of their ports, there were significant disruptions of traffic routes through the ports of the Black Sea, as well as finding alternative traffic routes. The secondary effect of the conflict is visible in market disruptions in the supply of energy, disruptions in the food products market, and the growth of the inflation rate, which has an impact on the Company's operations, partly in the increase in operating costs. The company intends to continuously monitor costs, and with quick business decisions to influence the achievement of cost efficiency, which will result in more profitable operations.

The impact of the Red Sea crisis on the Company's operations

The Port of Rijeka, like all other ports in the world, is exposed to the action of a number of factors that can lead to a change in the direction of movement of ships, i.e. to a change in the flow of goods, which indicates the sensitivity of port systems and the great demands for the reorganization of entire logistics chains in order to enable smooth flow of goods.

Due to the crisis in the Red Sea, shipping companies are rerouting their ships via the Cape of Good Hope, which increases the ship's travel time and also increases freight rates. The aforementioned will have the greatest impact on container traffic, which is organized as liner maritime traffic. Container traffic accounts for 11% of the traffic of the Port of Rijeka and transshipment of different types of cargo enables the advantage of adaptation in unpredictable situations that may arise in the supply chain.

It is difficult to predict to what extent the crisis will affect business, it will certainly depend on the duration of the navigation restrictions and the willingness of all shippers to maintain the existing lines at the ports of call.
